IMPORTANT

Late Running of Trains on Suburban Lines

Punctual timekeeping of trains in the suburban area is of paramount importance. The co-operation of train crews and station staffs can materially assist in the elimination of avoidable delays and thus remove the cause for the complaints which the irritation of late running creates.

Barrier gates must be closed immediately on arrival of trains at intermediate stations.

Whenever a detention of 1 minute or over occurs to an electric train (Up or Down) on any line the Train Controller must be IMMEDIATELY notified in order that corrective action may be taken to ensure the maintenance of scheduled services.

Guards must, IMMEDIATELY on arrival at Flinders Street or other terminal stations furnish to the Officer-in-Charge at terminals or to the Platform Supervisor on the respective platforms at Flinders Street or Princes Bridge, as the case may be, complete details of late arrival of 2 minutes or more on T.R. 34 (Guards' Late Running Report).

The latter must then telephone these particulars to the Train Controller.

GENERAL INFORMATION

A copy of every new issue of a **WORKING TIME-TABLE BOOK**, or section of a Book, or amendment thereto, is to be supplied to all concerned in accordance with Regulation 8.

It is imperative that each Stationmaster carefully check this Time-table, regarding the timing of trains, crossing arrangements, &c., insofar as his own station or the stations he supervises are concerned. He will be held responsible for promptly bringing under the notice of the Co-ordinator of Time-tables (Room 70A), and Metropolitan or District Superintendent, any inaccuracies that may appear herein.

WALL SHEET TIME-TABLES issued in conjunction with this book, are to be posted in a prominent position at a height from the ground and in the close proximity of a light, to enable passengers to consult it with facility. A red line must be ruled on each time-table under the name of the station concerned, and time applying to it.

PASSENGER, RAIL MOTOR AND MIXED TRAIN RUNNING.—Depot stations must obtain full particulars from Guards of the late running of Passenger, Rail Motor and Mixed trains. In the case of a Rail Motor run without a Guard, the necessary particulars shall be obtained from the Driver. In the event of any time being lost by the locomotive, the cause, also locomotive number and class, must be ascertained from the Driver, and the Train Controller advised. Drivers will require to explain the cause of any time lost that in the agregate exceeds the time gained on the journey.

When a Passenger, Rail Motor or Mixed train is blocked at a roadside station, the Train Controller must be advised by the Stationmaster at the station at which the block occurred, and if the tran that caused the block was running late the cause of such late running (whether overtime in section or other cause) must be given if ascertainable.

SUBURBAN PASSENGERS NOT TO TRAVEL BY COUNTRY TRAINS.—Country trains including Rail Motor and Locomotive hauled Passenger Trains, shown in the Northern and Midland, Western and South Western, North Eastern and Eastern Working Time-table books are not available for inter-station passenger travel within the electrified Suburban area unless otherwise shown. One-class suburban ticket holders are not permitted to travel in first-class carriages of country trains.

FAST NEWS-GOODS TRAINS.—Passengers must not be allowed to travel by the Fast News Goods trains, as set out hereunder, unless authorised by the Board or the Chief Traffic Manager.

Members of both Houses of the Federal and State Parliaments are, however, exempt from the foregoing prohibition and may be permitted to travel on these trains, as required.

The trains referred to are:—

1.30 a.m. (No. 15), Northern; 12.20 a.m. (No. 35), and 1.10 a.m. (No. 113) Eastern.

SCHEDULED STOPPING ARRANGEMENTS FOR COUNTRY PASSENGER SERVICES.—The instructions regarding action to be taken by trainmen concerning "if required" stops when necessary for passenger purposes etc., are shown on page 73 of W.T.T. Addenda.

INSTRUCTIONS TO BE OBSERVED IN THE EVENT OF FOG ARISING.

1. **Speed of Trains.**—In foggy weather, or when, from any cause, a good and distinct view of the Fixed Signals cannot be obtained, the maximum rate of speed of any train when entering or passing a station in the suburban area must not exceed 15 miles per hour. This is subject to the observance of Regulations 167, 168 and 170.

2. During foggy weather units are not to be detached from trains running on the lines on which the fog exists, except as directed by the Superintendent Metropolitan Train Running.

FORMAT OF METROPOLITAN DISTRICT WORKING TIME-TABLE

The Metropolitan District Working Time-table is now issued in two parts—Part I containing the Mondays to Fridays service (white pages) and the General Instructions (blue pages) whilst Part II contains the Saturdays service (yellow pages) and Sundays service (green pages).

The time-table matter has been rearranged with Flinders Street as the focal point and stations which are served by trains that run to termini on different lines will have the full time-table in the one place. The only exception to this is Richmond which appears in two sections due to space considerations.

As far as practicable trains are shown strictly in time order throughout the time-table. This includes all country passenger trains, all suburban goods trains (identified by train numbers commencing with No. 900) and certain country express and fast goods trains.

The main sections, which contain all the passenger trains that pass through, are:—

(a) Spencer Street and North Melbourne (Williamstown Pier, St. Albans, Altona, Broadmeadows and Upfield lines)
(b) South Yarra (Sandringham, Frankston and Pakenham lines)
(c) Burnley (Lilydale, Belgrave, Alamein and Glen Waverley lines)
(d) Clifton Hill (Hurstbridge and Epping lines), and the
(e) Port Melbourne and St. Kilda lines have been combined.

An electric train Run numbering system has been devised and is included in this time-table book. All electric train trips will be identified by a Run Number. This will be in addition to the usual identification of trains by departure time and destination, e.g., 5.19 a.m. Flinders Street–St. Albans (Run 104). This information is also shown on the Docking Sheets and Train Crew Roster Books. Ultimately it is proposed to exhibit these Run Numbers on the front of electric trains to assist staff to clearly identify trains when approaching stations or passing signal boxes.

Where multiple running tracks exist each train is shown at that point and wherever changes occur which track it is scheduled to operate over.

GENERAL NOTES

TIMING OF TRAINS

Timings shown in **bold** type thus—**1 34**—indicate the times trains are due to arrive at and/or depart from the various stations, junctions, etc., after a regular stop (exepting trains which are just commencing running). **Where no timing is shown trains do not stop.**

Accompanying symbols with the timings may modify the conditions of stop, e.g., **1f34, 1d34, 1¶34,** etc. (See page 9).

Timings in light type accompanied by an asterisk (*) thus—1*34—indicate the time the train is due to pass through stations, junctions, etc., without stopping.

NUMBERING OF TRAINS

Distinctive type is used at the top of train columns in the time-table to denote the following:

Electric multiple unit trains (designated **Elec.** in train column) and Parcels Coaches are indicated by Run Numbers in large type, thus **150.**

Each electric train is allocated a Run Number when it goes 'ON' and retains that number until it goes 'OFF'. Trains which go 'OFF' at suburban stations during the day and come 'ON' again during the same day will retain the same number. When a train divides, one portion retains the original Run Number, and the other portion is usually allotted the next following Run Number.

All other trains, including passenger and goods hauled by either diesel, electric or steam locomotives, diesel rail cars and rail motors, are indicated by train numbers in small type thus—**124.** Trains designated "Pass." and "Express" in the time-table are locomotive-hauled passenger trains unless otherwise stated.

Light Locomotives will be distinguished by the letter "D"—Diesel, "E"—Electric, or "L"—Steam in front of the number, thus—**D154, E166, L144.**

GLOSSARY OF TIME-TABLE REFERENCES SYMBOLS

M — Monday

Tu — Tuesday

W — Wednesday

Th — Thursday

F — Friday

Sa — Saturday

Su — Sunday

The addition of the letter '**O**' indicates that the train will run **only** on that day or those days.
The addition of the letter '**E**' indicates that the train will **not** run on that day or those days.

e.g., **ThO** — Thursdays only

WE — Wednesdays excepted

MWO — Mondays and Wednesdays only

ROUTE INDICATIONS

Where multiple running lines exist track to be taken is indicated by the following letter/letters in the train column.

BL Burnley Local lines between Flinders Street 'C' Box and Burnley.

BT Burnley Through lines between Flinders Street 'C' & 'D' Boxes and Burnley.

C Centre line (two-way running) between Burnley and Box Hill.

The Single Line between Altona Junction and Altona is worked under the **Automatic and Track Control System.**

The **Automatic and Track Control System** is in operation between Ringwood and Croydon, Ringwood and Bayswater and between Fern Tree Gully and Belgrave. At Upwey the points and signals are operated by remote control from Upper Fern Tree Gully.

The **Lever Locking and Track Control System** is in operation on the Centre line between Burnley and Camberwell and between Camberwell and Box Hill; on the Up line between Camberwell and Riversdale.

St. Kilda—For instructions respecting the Automatic Working of Points and Signals, see Book of Signals.

Glen Waverley—For instructions respecting the Automatic Working of points and signals, see Book of Signals.

Cave Hill Siding (between Mooroolbark and Lilydale) is an unattended Siding equipped with an Intermediate Electric Staff instrument.

Thomastown will be opened as a Staff Station by the 11.58 a.m. Down Electric and closed by the 2.19 p.m. Up Electric on Tuesdays and Wednesdays.

Diamond Creek will be opened as a Staff Station by the 4.58 a.m. Down Electric and closed by the 7.44 a.m. Up Electric and will be opened by the 3.28 p.m. Down Electric and closed by the 7.11 p.m. Up Electric.

GENERAL NOTES

TIMING OF TRAINS

Timings shown in **bold** type thus—**l 34**—indicate the times trains are due to arrive at and/or depart from the various stations, junctions, etc., after a regular stop (excepting trains which are just commencing running). **Where no timing is shown trains do not stop.**

Accompanying symbols with the timings may modify the conditions of stop, e.g., **lf34, ld34, l¶34,** etc. (See page 8).

Timings in light type accompanied by an asterisk (*) thus—l*34—indicate the time the train is due to pass through stations, junctions, etc., without stopping.

NUMBERING OF TRAINS

Distinctive type is used at the top of train columns in the time-table to denote the following:

Electric multiple unit trains (designated **Elec.** in train column) and Parcels Coaches are indicated by Run Numbers in large type, thus **150.**

Each electric train is allocated a Run Number when it goes 'ON' and retains that number until it goes 'OFF'. Trains which go 'OFF' at suburban stations during the day and come 'ON' again during the same day will retain the same number. When a train divides, one portion retains the original Run Number, and the other portion is usually allotted the next following Run Number.

All other trains, including passenger and goods hauled by either diesel, electric or steam locomotives, diesel rail cars and rail motors, are indicated by train numbers in small type thus—**124.** Trains designated "Pass." and "Express" in the time-table are locomotive-hauled passenger trains unless otherwise stated.

Light Locomotives will be distinguished by the letter "**D**"—Diesel, "**E**" Electric, or "**L**"—Steam in front of the number, thus—**D154, E166, L144.**

GLOSSARY OF TIME-TABLE REFERENCE SYMBOLS

M — Monday
Tu — Tuesday
W — Wednesday
Th — Thursday
F — Friday
Sa — Saturday
Su — Sunday

The addition of the letter '**O**' indicates that the train will run **only** on that day or those days.
The addition of the letter '**E**' indicates that the train will **not** run on that day or those days.

e.g., **ThO** — Thursdays only
WE — Wednesdays excepted
MWO — Mondays and Wednesdays only
