IMPORTANT

Late Running of Trains on Suburban Lines

Punctual timekeeping of trains in the suburban area is of paramount importance.The co-operation of train crews and station staffs can materially assist in the elimination of avoidable delays and thus remove the cause for the complaints which the irritation of late running creates.

Whenever a detention of 1 minute or over occurs to an electric train (Up or Down) on any line the Train Controller must be IMMEDIATELY notified in order that corrective action may be taken to ensure the maintenance of scheduled services.

Guards must,IMMEDIATELY on arrival at Flinders Street or other terminal stations furnish to the Officer-in-Charge at terminals or to the Platform Supervisor on the respective platforms at Flinders Street complete details of late arrival of 2 minutues or more on T.R.34 (Guards'Late Running Report).

The latter must then telephone these particulars to the Train Controller

MAIN FEATURES OF THIS NEW TIME-TABLE

● As a prerequisite to introduction of underground loop services on the Burnley and Caulfield groups of lines later in the year, some changes to platform/track numbers at Flinders Street will occur and also new platforming arrangements for some lines necessitating many alterations to suburban and country passenger train schedules.

The platform/track number changes which will occur are:

Existing Platform/track No.	New Platform/track No.
No. 10 East Flinders Street	No. 12 Flinders Street
No. 11 East Flinders Street	No. 13 ,,

GENERAL INFORMATION

A copy of every new issue of a WORKING TIME-TABLE BOOK, or section of a Book, or amendment thereto, is to be supplied to all concerned in accordance with Regulation 8.

It is imperative that each Stationmaster carefully check this Time-table, regarding the timing of trains, crossing arrangements, etc., insofar as his own station or the stations he supervises are concerned. He will be held responsible for promptly bringing under the notice of the Assistant Chief Operations Manager (Suburban) and Manager Suburban Planning any inaccuracies that may appear.

WALL SHEET TIME-TABLES issued in conjunction with this book, are to be posted in a prominent position at a height from the ground and in the close proximity of a light, to enable passengers to consult it with facility. A red line must be ruled on each Time-table under the name of the station concerned, and time applying to it.

PASSENGER, RAIL MOTOR AND MIXED TRAIN RUNNING.–Depot stations must obtain full particulars from Guards of the late running of Passenger, Rail Motor and Mixed trains. In the case of a Rail Motor run without a Guard, the necessary particulars shall be obtained from the Engineman. In the event of any time being lost by the locomotive, the cause, also locomotive number and class, must be ascertained from the Engineman, and the Train Controller advised. Enginemen will require to explain the cause of any time lost that in the aggregate exceeds the time gained on the journey.

When a Passenger, Rail Motor or mixed train is blocked at a roadside station, the Train Controller must be advised by the Stationmaster at the station at which the block occurred, and if the train that caused the block was running late the cause of such late running (whether overtime in section or other cause) must be given if ascertainable.

SUBURBAN PASSENGERS TRAVELLING BY COUNTRY TRAINS.–Suburban inter-station travel by country trains including Rail Motor and Locomotive hauled Passenger trains is permitted except where stopping conditions do not allow. One-class suburban ticket holders are not permitted to travel in first-class carriages of country trains.

FAST NEWS-GOODS TRAINS.–Passengers must not be allowed to travel by No. 9003 Northern, Nos. 9405 and 9409 Eastern, Express News Goods trains, unless authorised by the Board or the Chief Operations Manager.

Members of both Houses of the Federal and State Parliaments are, however, exempt from the foregoing prohibition and may be permitted to travel on these trains, as required.

SCHEDULED STOPPING ARRANGEMENTS FOR COUNTRY PASSENGER SERVICES.–The instructions regarding action to be taken by trainmen concerning "if required" stops when necessary for passenger purposes etc., are shown on page 73 of W.T.T. Addenda.

INSTRUCTIONS TO BE OBSERVED IN THE EVENT OF FOG ARISING.

1. **Speed of Trains.**–In foggy weather, or when, from any cause, a good and distinct view of the Fixed Signals cannot be obtained, the maximum rate of speed of any train when entering or passing a station in the suburban area must not exceed 25 km/h (15 miles per hour). This is subject to the observance of Regulations 167, 168 and 170.

2. During foggy weather units are not to be detached from trains running on the lines on which the fog exists, except as directed by the Manager Suburban Train Operations.

FORMAT OF METROPOLITAN DISTRICT WORKING TIME-TABLE

The Metropolitan District Working Time-table is now issued in three parts–Part I containing the Mondays to Fridays train service (white pages), Part II containing the Saturdays train service (yellow pages) and Sundays train service (green pages),and Part III – Appendix – containing general instructions and information (blue pages).

The Time-table matter has been arranged with Flinders Street as the focal point and stations which are served by trains that run to termini on different lines will have the full Time-table in the one place. The only exception to this is Richmond which appears in three sections mainly due to space considerations.

As far as practicable trains are shown strictly in time order throughout the Time-table which includes all country passenger trains, light locomotive and parcel coach movements.

The main sections, which contain all the passenger trains that pass through, are:–

(a) Spencer Street and North Melbourne (Williamstown Pier, Werribee, St. Albans, Altona, Broadmeadows and Upfield lines)

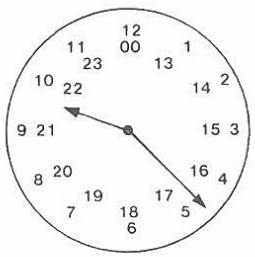

(b) Caulfield (Frankston, Stony Point, Mornington and Pakenham lines)

(c) Burnley (Lilydale, Belgrave, Alamein and Glen Waverley lines)

(d) Clifton Hill (Hurstbridge and Epping lines), and the

(e) Sandringham, Port Melbourne and St. Kilda lines have been combined.

Where multiple running tracks exist each train is shown at that point and wherever changes occur which track it is scheduled to operate over.

24 HOUR TIMINGS

24 hour timings are used throughout this Time-table and ancillary train running documents.

The hours are numbered consecutively from 1 to 23 then 00 (as shown on the dial). Instead of a.m. and p.m. 12 is added to the hours after midday, thus 1.00 p.m. becomes 13 00, 5.00 p.m. becomes 17 00, 9.00 p.m. becomes 21 00 (or 21 19 or 21 47 according to the minutes after the hour) and so on. Midnight is 00 00 and times between midnight and 1.00 a.m. are shown by the figures 00 01 to 00 59.

Note:–All quotations of train times to the travelling public should still be in 12 hour a.m. and p.m. times; Wall-sheet and hand-out Time-tables will also continue to be shown in 12 hour a.m. and p.m. times.
